

Module 6

We will be matching pre and post-tests to assess the integration of new knowledge, skills and attitudes with respect to working with adolescents who are at risk or actively using substances. As such, we will not ask for your name, but a unique identifier which will allow us to pair the pre with the post-test. Please fill in your unique identifier below - it should be your birthdate (Date_Month_Year), gender (M/F) and your first and last initial. For example, for a female named Jane Doe who was born on February 3, 1980, her unique identifier would be **03021980FJD**.

Unique Identifier: _____

Please circle one of the following.

PRE-TEST

POST-TEST

Answer the following true/false questions.

1. Gangs and Violent Extremist Organizations (VEOs) are generally the same.
2. Making money is the key reason that juveniles join gangs.
3. Females represent approximately 10% of gang members.
4. Juveniles who feel little commitment to their schools are at increased risk for gang involvement.

5. The presence of risk factors in multiple domains increases the likelihood of gang involvement.

Fill in the blanks on the following questions.

6. _____ is the key reason juveniles join gangs.

7. Name three components of what constitutes a gang.

8. Name three intervention levels to address gang issues.

9. Name three components of a comprehensive gang strategy.

10. Name three risk factor domains associated with gang membership and behavior.

Check the box which most closely corresponds to your response.

	Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree
Most crime is committed by relatively few gang members.					
The role of females in gangs is increasing.					
Young men are the majority of the victims of violence.					
Incarceration is the most effective solution to the gang problem.					
The police have primary responsibility for responding to gangs.
