

# Join us at the 3<sup>rd</sup> webinar of the EUSPR Early Careers Forum!

## Policy and evidence - more than a marriage of convenience?

The 4th of June 2020, from 2.30pm to 3.30pm (CET)  
1.30pm to 2.30 pm (GMT)

Researchers are increasingly expected to show that their work is policy relevant. What does that mean? What else are researchers competing with? Are there any rules that will help to be more sure that evidence based results catches the eye of policy makers?

This session will give you a realistic picture of

- how policy is made,
- how evidence is considered,
- what else is in policy makers minds in choosing a course of action.

The webinar will also explore whether there are lessons to be drawn from two academics who have been successful in influencing policy: **Andrew BROWN** - senior programme manager at Public Health England and former EUSPR board member - who will talk about his experience of developing policy in an evidence based organisation which provides advice to central government and **Kathryn OLIVER** - Associate Professor of Sociology and Public health at the London School of Hygiene and tropical Medicine - who will share her expertise and give us an insight of her research on evidence, policy and practice.

### **REGISTER NOW - Places limited**

To participate in the webinar, register for free  
**before the 29<sup>th</sup> of May 2020 12.00 (CET)**  
by sending an email to
