INL's Webinar Week on Public-Private Partnerships to Counter Drug Challenges

October 25-29, 2021

The U.S. Department of State's Bureau of International Narcotics and Law Enforcement Affairs (INL) presents the third annual event on partnering with the private sector to address the world drug problem. The private sector can play a major role in preventing and combating the manufacture, diversion, sale, and misuse of drugs and precursors by mobilizing its unique resources, technologies, and expertise. Throughout webinar week, INL will showcase the important role the private sector can play in addressing distinct aspects of the world drug problem, and how government and business can work together, through case studies and sharing of best practices.

Please register for the sessions you plan to attend via the hyperlinks below – we look forward to having you join us!
